SKILLS

Frontend
React, Next.js, TypeScript, JavaScript (ES6+), Tailwind CSS, DaisyUI, HTML5, CSS3

Backend and database
Node.js, Express.js, MongoDB, Mongoose, REST APIs, Better Auth

Tools
Git, GitHub, Vercel, Postman, Figma

Fundamentals
Object-oriented programming, data structures, algorithms

EDUCATION

B.Sc. in Electrical and Electronic Engineering
Rajshahi University of Engineering and Technology
2022 - 2026
CGPA 3.68 / 4.00

Higher Secondary Certificate
Rajshahi College
2018 - 2021 · GPA 5.00 / 5.00

SUMMARY

Electrical and Electronic Engineering graduate and full stack developer who builds responsive, authenticated web apps with Next.js, React, TypeScript, and MongoDB. An engineering background in logical, systems-level problem solving shapes how I structure code, and I am now building toward AI-focused development.

PROJECTS

BazarDor

Live demo · GitHub

Next.js, React, TypeScript, Tailwind CSS, DaisyUI, Better Auth, MongoDB

- Built a responsive Bengali online marketplace where users browse products by category and search for items.
- Implemented sign up, sign in, and profile management with Better Auth and MongoDB.
- Added toast notifications and a layout that works across mobile, tablet, and desktop.

FitLog

Live demo · GitHub

Next.js, React, TypeScript, Tailwind CSS, DaisyUI

- Built a fitness companion app for discovering workouts, building daily routines, and saving exercises for later.
- Showed muscle group details, equipment needs, difficulty levels, and calorie calculations for each exercise.
- Added multi-criteria sorting so users can order workouts by what matters to them.

Bangla News 24

Live demo · GitHub

Next.js, React, TypeScript, Tailwind CSS, DaisyUI, Better Auth, MongoDB, News API

- Built a responsive Bengali news portal that fetches articles and categories from a news API.
- Created category-based navigation and full article pages, with custom loading UI and error pages.
- Added user authentication with Better Auth, backed by MongoDB.

DevConf 2026

Live demo · GitHub

HTML5, CSS3

- Built a landing page for a developer conference with a speaker lineup, three ticket plans, and venue directions.
